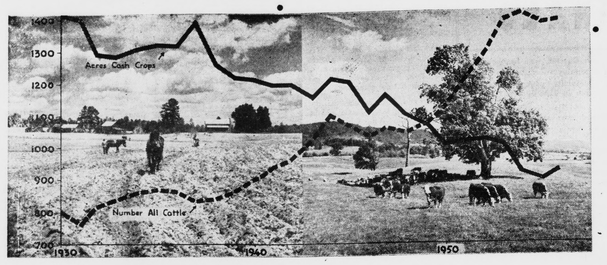
VIRGINIA FARMERS ARE SLOWLY CHANGING



TRENDS IN VIRGINIA AGRICULTURE — The face of farming in Virginia is changing, as shown on above photos. From 1930 to 1956, beef cattle numbers rose steadily, while the number of acres in cash crops dropped. (Vertical numbers are expressed in thousands). Officials at Virginia Agricultural Experiment Station say that income from cattle rose from $40 million to $150 million during the 1930-56 period, while income from cash crops, on 486,000 fewer acres, rose from $65 million to $213 million. These advances, the scientists say, are made possible by the practical application of research down on the farm, and research now underway is pointing to even more notable progress in the future.

LEGION POST INSTALLS NEW OFFICERS HERE

American Legion Post No. 104 at Appomattox held its installation services Tuesday night, June 23, following a family night crowd of Legionnaires and their families enjoying a barbecued chicken supper. Approximately 70 members and their families were on hand to see the outgoing Commander, Eames A. Powers, turn over the gavel to Cliff E .Harvey, incoming Commander.

Others installed were: Thomas C. Harvey Jr., first vice commander; Gordon Martin, second vice commander; Frank McCann, service officer; Emile T. Bruce, adjutant and finance officer; the Rev. James T. Cravens, chaplain; C. K. Hunter, historian, and W. E. Layne, sergeant-at-arms.

Adam C. "Buck" Clement, of Lynchburg, veterans claims agent and state department officer for the State of Virginia, American Legion, was the installing officer.

Outgoing Commander Powers stated that he deeply appreciated the cooperation shown him during the past year.

Just before the close of the meeting, Commander Powers presented Ivey Holland with the American Legion Citation for Meritorious Service. The citation reads in part that "Ivey Holland is entitled to the grateful appreciation of the members of this post (No. 104) for the unselfish and efficient services he has rendered to this post and to this community over the years."

In FASHION now

Never get so carried away with high fashion that you wear clothes that look awful on you. This is the best advice in the world. It is amazing the number of women who are lucky enough to have a good deal of money to spend on clothes but who spend the money unwisely.

For some reason a great many women think that an expensive dress, that they put a lot of money in, must be either extreme in style or cooked up and over designed. Some of the most becoming and most expensive clothes made are plain, devoid of frills or fancy trim. They depend on good fabric, fit and cut to achieve their style. For almost all women, this type dress is more becoming than a very fancy number.

French and Italian designers tell us that American women have wonderful figures. They say that a good figure has a high bust, slim torso, and tiny waist. It seems that American women are noted for their long legs and this is considered a fashion asset.

If you don't feel that your figure is all that it should be, there are clothes that will do a lot to create the impression that you have a perfect figure. To insure an attractive body line, a good designer depends on inner construction that provides the figure for those not with their own built-in flattery.

This attention to cut and fit costs extra money but is more than worth the expense Inner construction is not a hidden expense to the woman who really knows clothes.

A good buy in a piece of clothing will have three appeals. They are: eye appeal, sex appeal, and purse appeal. A fad type dress that is all the rage this month is not a wise investment unless you have a limitless amount to spend. Often it is a temptation to buy by whim— but don't do it. Take your time when you are choosing even an inexpensive item of clothing. Always keep in mind that if you don't need an item, it is expensive at any price.

An elderly lady, after long trips through impressive hallways and an hour of waiting, was permitted to see a high-up assistant in the Agriculture Department.

"But I want to see the Secretary of Agriculture himself," she protested.

"He's not in just now, madam," said the official. "Can't you tell me what it is you want to see him about?"

"Well, I have a geranium that isn't doing so well."

. . . Rev. Virgil L. Hudson

The Rev. Virgil L. Hudson, of Lakeside Baptist Church, in Richmond, Va., has accepted a call as a full-time pastor of the Evergreen Baptist Church. He will begin his work on August 1.

The Rev. Hudson was born in Burke County, N. C., June 19, 1920. Early in life he moved to Prince Edward County, Va., and attend school at Prospect, and then went to college and received his A. B. degree from Furman University, in Greenville, S .C., and his B .D. degree in 1947 from Southern Baptist Seminary, Louisville, Ky. While at the Seminary, he was married to Glenda Marie Pond, a student at the Seminary Training School.

Rev. Hudson has been pastor at Bardstown Junction Baptist Church, and at Hebron Church, Gore, Va.; Kendron, at Gladys, Va., and at the Lakeside Baptist Church, Richmond. During his six and one-half years in Richmond, his church received 183 by baptism and 306 by letter or statement, and the church has grown from 120 to over 500 members.

The Hudsons have three children, Kyle, Leonda and Lynette.

CLUB TO ASSUME BALL FIELD PROJECT

The Appomattox Lions Club, with the aid of the Appomattox Junior Chamber of Commerce, has recently leveled the playground area at the Appomattox High School, and sown grass for a football field. Now, the Clubs have started on a project to set up a lighting system for the field. It is also planned to set up bleachers and to surround the field with an attractive fence, All of this will be given to the Appomattox School Board. None of the expense is defrayed by Appomattox County, as the sponsors have and will continue to raise money by donations and group fund raising campaigns for the project.

The cost will be between $8,000 and $10,000. Contributions are invited, in order that a new football field here may be set up. Any size donations will be accepted and appreciated by the Lions Club, as the club seeks to help keep Appomattox a growing town. Donations may be deducted for income tax purposes, the committee states.

Wheat Referendum

The voting place for the referendum to be held July 23 on marketing quotas for the 1960 wheat crop were announced today by W. D. Hix, III, chairman, County Agricultural Stabilization and Conservation Committee. The voting place for Appomattox County will be the ASC office at Appomattox.

Farmers who are eligible to vote in the wheat quota referendum are all those who in 1960 will have more than 15 acres of wheat for harvest as grain on a farm, except those who are participating in the 1959 feed wheat program, Under the feed wheat program, farmers may arrange with the county office to grow up to 30 acres of wheat for use only on the farm where grown without being subject to marketing quota penalties.

If at least two-thirds of the growers who vote in the referendum approve the quotas, they will remain in effect for 1960-crop wheat and price support will be available to farmers who comply with their farm wheat allotments at at least 75 per cent of parity. Farmers who exceed the larger of the farm allotment or 15 acres will be subject to a marketing penalty of 45 per cent of the wheat parity price on their "excess" wheat.

If the quotas are not approved by at least two-thirds of the growers voting, the quotas and penalties will not be in effect, and price support will be available to farmers who comply with their farm wheat allotments at 50 per cent of parity, as directed by law. At current parity levels, that would be about $1.18 per bushel.
